- **VAPOR EVO:** VAPOR EVO 190.
- **DEFENCE line:** DEFENCE ADHESIVE (200); DEFENCE ADHESIVE SPEEDY; DEFENCE ADHESIVE REMOVABLE; DEFENCE ADHESIVE TRASPIR EVO.

\*\*\*

Rotho Blaas warrants that, for a period of ten (10) years from the date of purchase, the products are free from defects in materials or fabrication under normal use.

The warranty is applicable on the condition that the products are used in strict accordance with their Technical Data Sheet (TDS), the instructions issued by Rotho Blaas, and the installation is executed in a diligent manner by qualified professionals. The instructions for correct installation are set out in the technical documentation provided with the products and are also accessible on the Rotho Blaas website as well as in its catalog. Furthermore, in order for the warranty to be considered valid, it is essential that products are installed using Rotho Blaas sealing products and accessories. Use of any non-Rothoblaas tapes, primers, sealants, or accessories in conjunction with the warranted products voids this warranty.

The warranty only applies to defects which have arisen solely from faulty materials or fabrication and does not apply to other defects including, without limitation, (i) incorrect installation, (ii) accidental damage, (iii) abuse, (iv) misuse, (v) maltreatment, (vi) abnormal stress or strain, (vii) harsh or corrosive environments, (viii) neglect, incorrect transport or defective handling and/or storage, (ix) deformations or defects in the structure above or below the products and (x) alterations to the products, even those resulting from repairs not authorized by Rotho Blaas. This warranty does not cover mold, mildew, fungal growth, or associated damages arising from prolonged moisture entrapment, building leaks, condensation, or inadequate ventilation.

It is important to note that the warranty is null and void in the event that the products supplied and invoiced are not paid in full to Rotho Blaas.

**UV exposure and storage.** Products may remain exposed to ordinary weather only for the maximum UV-exposure period stated in the relevant TDS for that specific product. The warranty will be null and void if products are exposed beyond the specified period. Products must be kept in their original, unopened packaging, stored dry, protected from direct sunlight, and arranged on pallets no more than four high. Avoid standing water, chemical exposure, and sustained temperatures in excess of 60 °C (140 °F).

**Remedies and limitations.** The warranty only covers the supply of products needed to replace existing defective ones. Costs for removal, access, transport and re-installation are not covered. Under no circumstances does Rotho Blaas accept any liability for consequential or incidental loss. The exclusive remedy under this warranty is replacement of defective product as described above. No distributor, dealer, or sales representative is authorized to modify or extend these terms.

### Warranty claims procedure

Warranty claims must include all details and should be made in writing to Rotho Blaas within thirty (30) days of the appearance or discovery of the defect.

Should the Client wish to submit a warranty claim, the following information shall be provided:

- Product name and code number;
- Date of purchase;
- Invoice and proof of payment;
- Date of installation and installation company details;
- Batch/lot numbers (where available);
- Description of the defect/warranty claim with photographic documentation.

All the above information shall be forwarded to the Rotho Blaas sales representative responsible for your geographical area. In case of any uncertainty regarding the appropriate contact person, the Customer Service team shall be consulted and will provide the correct contact details. Following the review of the relevant documentation, Rotho Blaas will conduct an inspection with its technical consultants.

By purchasing and installing the products, the purchaser accepts these warranty terms. This document constitutes the entire limited warranty for the products and supersedes any prior statements or descriptions. No distributor, dealer, or sales representative is authorized to modify or extend these terms. Where referenced, the TDS and installation instructions form an integral part of these terms.
